

ELITE

**NEWVISION®**

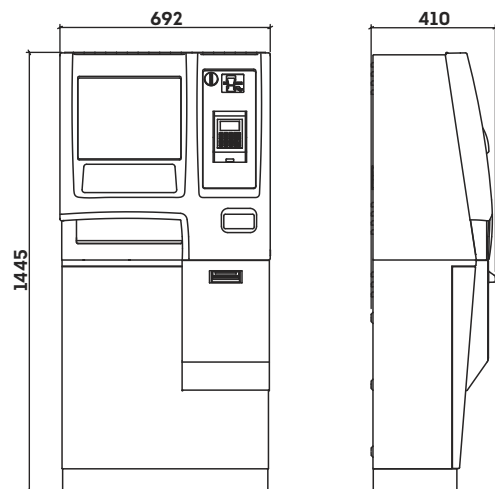

## ELITE

The ELITE stands as so much more than a Service Kiosk. It's a highly versatile, high capacity equipment, ideal to acquire products, such as stamps, tickets, vouchers and scratch cards, as well as accepting different forms of payment for a multitude of operations.

The user has full autonomy over the whole process, being able to pay with cards or cash, with the ability to change in return, and also getting access to multiple format official and legal documentation.

### Base Features

- Modular Design & Built.
- 17" TFT LCD touchscreen interface.
- 2mm-thick steel structure.
- Electrostatic painted, highly resistant to corrosion and low conductivity.
- Full color customization of the frontal framework.
